

INDIAN SUMMER – SUPPLY LIST

Pre-Class Instructions:

Purchase your pattern - (1 Indian Summer)

Please read the instructions in your pattern at least one (1) time before class. This will help to ensure that you understand the cutting information below. It is strongly encouraged that you have the papers, templates, and fabrics for the entire quilt cut out, placed in bags, and ready to use in class. A simplified version of the cutting instructions in the pattern is provided below. For more, information, please refer to your pattern.

Note: If you do not have time to cut out the whole quilt, you should at least have four (4) foundation papers, four (4) rectangles, and two (2) “template layout sheets” for EACH foundation unit bagged and ready for class.

Foundation Papers:

Please take time to become familiar with each paper foundation unit before starting. Prepare the foundation papers by trimming the excess paper from around the outside dark line cutting by approximately 1/8" from the edge . *It is much easier to position the fabric under the foundation papers when the excess paper has been trimmed away.* Place a large paper clip on each group to keep the units together.

(Refer to graphics on Page 2 of the patten)

Unit CB - Place these papers in Bag 1

Units DL and DR - Place these papers in Bag 2

Unit CP - Place these papers in Bag 2

Templates:

“Template Layout Sheets” are the actual pieces that your will be using to cut your fabrics from for the paper foundation. They are made by grouping together several paper piecing templates to be cut at one time. They are designed for you to stack your fabric and cut out many pieces at one time, while keeping them on the straight of grain.

In class, I will show you how the layout sheets are used to cut out your fabric pieces.

(Refer to Graphics on page 2 of the pattern)

In this class you will have the opportunity to learn some of the techniques that are written about in the patterns. I will be teaching a process of foundation paper piecing that uses a chain-piecing method. This process is possible because all of the fabric is pre-cut using templates that have been designed and included in the pattern. I will also teach speed cutting techniques for both paper and fabric. I will teach sewing and pressing techniques that will enable you to do foundation paper piecing, and traditional piecing. I teach a fast and easy way to make templates, how to use them, and how to design them .

Extra foundation papers are available for this quilt. The finished size for each block is 9”.
