

Students in workshops with Certified Instructor, Jodie Madison, located in Wisconsin, took some time to share their impressions of a couple workshops she taught recently, including one at the Calico Shoppe (Desert Sky), another at Rather Bee Quilting (Arizona Cactus), and a third with Hudson Heritage Quilters (Cactus Flower Table Runner)! ~ Summer of 2013

Highlights of each class include:

#### **Rather Bee Quilting:**

*Jodie helped take out stitches when mistakes were made. She went out of her way to always check our work and answer any and all questions. I would definitely take another class from Jodie ~ She's knowledgeable, helpful, caring, and very eager to help us learn.*

*Jodie put us at ease. I was so nervous at first! You had great patience. Thank you!*

#### **Calico Shoppe:**

*Jodie takes time with everyone, checking on their progress, helping with confusion ~ Excellent teacher!*

*Jodie offered lots of one on one help to those who needed it! She's a master with the seam ripper!!! She always offers her email and phone in case students have a question after class and needs to contact her. She's GREAT!*

*Thank you, Jodie ~ This class was wonderful and I'm so looking forward to the next one!*

*Jodie has the ability to really teach and give individual attention. Exceptional!*

*Jodie was a very patient instructor ~ I am a beginner and she was great!*

*Everything with this workshop was perfectly explained and laid out. The class was a real pleasure to take. Jodie was fabulous. The pattern instructions were very clear and there was great student support. I would take another class from her anytime!!!*

*Jodie was absolutely excellent! Couldn't be better ~ this is my 4<sup>th</sup> JN Project and 2<sup>nd</sup> class. Jodie is, by far, the best instructor ever! She was patient and clear. Everyone got so much helpful attention. Great job. She took the extra time to give us a specially session on curved piecing because I had to leave early.*

*Jodie was just awesome. She gave very individual attention even though I personally thought the class was quite large.*
