

Option 1: Flower Set can Replace flower set on Right side of Main Design.

Option 2: Flower Set with Star can Replace flower set on Right side of Main Design

Copies: You will need to make an extra copy of the template pieces for the applique. You can photo copy this page or you can trace it. The second copy is stapled onto 4 layers of stabilizer. The individual pieces are then cut apart to make the template pieces for the applique.

Cover Sheet Layout with Addition of Star: Option 2

Replace this Part of the Flower with Option 1 if Desired

MAIN APPLIQUE DESIGN

Special Hints: Do not separate the individual petal on each flower group until you are ready to glue them onto the fabric.

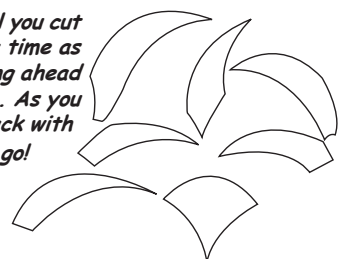

1. Cut off the first petal, adhere it to the backside of the fabric. Turn under the fabric edges.

2. Cut off the second petal, adhere it to the backside of the fabric. Turn under the fabric edges.

3. Cut off the third petal, adhere it to the backside of the fabric. Turn under the fabric edges. Repeat the process for each petal.

Note: It does not matter which petal you cut off first, just cut them off one at a time as you work through the flower. Thinking ahead and being organized stops confusion. As you built each petal, place the pieces back with

the master copy so you don't forget where all the little pieces go!

Special Hints: Pay attention to the front and back side of the template pieces. Mark the backside of your pieces with an X before you pull the staples out of the individual pieces. This will help you identify the front and backside of each group of templates.

The template pieces are directional. If you flip some of the pieces and not the others the applique pieces will not fit back together.

It does not matter on this quilt which side you mark as the backside as long as you are consistent.

The applique templates on this page give you some options for how to create the applique on your quilt. The coversheet design uses the Main applique design, but substitutes Option 1 without the star for the petal on the right in the main applique design.

You can pick and choose which option, just make sure that you cut all of the pieces going in the same direction!
