

February 9, 2014

CI May Gunter passed along an email she received recently from a student who took one of her Sea Urchins classes.

“Hey, May,

Just wanted to thank you for a good class yesterday.

Everybody had a good time laughing and working; and all felt like they had learned some valuable tips in piecing.

Thank you especially for helping me with a review of the curved piecing technique.

You are a patient teacher and good role model, keeping things light and fun.

See you next month.”
